

Avant Garde Dance present

Illegal Dance

Running from **Tuesday 28 March**

Tony Adigun's *Illegal Dance* is a unique multi-sensory and immersive dance theatre experience, unlike anything you've seen before.

This mesmerising 80-minute show explores a future where artistic expression is forbidden by oppressive regimes around the world. Dynamic contemporary choreography blended with innovative technical stagecraft portrays the tensions in a society that pits order against chaos, security against freedom, and individualism against collective will. Every audience member must decide where they stand, pick a token, rebel or conform!

Collect your wireless headphones on arrival and join the preshow silent disco, a carefully curated mix of dance-inspiring anthems from hip hop to contemporary classical. In this show like no other, you, the audience, decide which of the two 3D audio soundtracks accompany your version of events. Switch sound scores anytime during the show at the click of a button.

Illegal Dance delivers laser-sharp ultra-HD projection beamed onto multiple surfaces. Audiences will marvel as six dancers on stage become 60 through the magic of real-time kaleidoscopic video technology.

For the select few who opt for a ticket to follow the way of the rebel, an unpredictable and exhilarating immersive experience awaits.
